

Department/Service: Putnam County Operation Life

Job Type: Paramedic, Part-Time

Location: Greencastle, Cloverdale, Bainbridge

Qualifications: Putnam County Operation Life is the sole 9-1-1 contractor for ambulance service in Putnam County, Indiana. During 2015, we responded to over 4,300 requests for emergency medical service in a rural environment with long transport times and advanced protocols, including RSA. We are seeking two paramedics who can commit to at least one (1) 24 or 18-hour shift every two weeks to function as part of an EMT-B/EMS-P crew. These positions require:

At least 18 months of continuous 9-1-1 experience as a cleared, independent paramedic practitioner. Unrestricted Indiana EMS-P licensure, unrestricted Indiana Vehicle Operator's License, current BCLS and ACLS. PALS/PEPP and PHTLS strongly preferred. Ability to receive medical control approval from IU Health Methodist Hospital.

All qualified applicants selected will receive an employment offer contingent upon a complete background investigation, ISP Criminal History Screen and pre-employment illicit substance UDS. Operation Life conducts random drug screens as a condition of continued employment for our employees.

Job Description: Drives ambulance in response to requests for emergency medical service; requests additional resources for the control of incidents as required; ensures safety at the scene for crew and patient.

Provides advanced life support and emergency care to the sick and injured; determines nature and extent of injuries or illnesses; assists in lifting and carrying patients in and out of ambulance, and transports patients to appropriate medical/trauma facility.

Performs such procedures as immobilization and bandaging, wound treatment, control of bleeding, CPR, RSA/RSI intubation, 12-lead cardiac activity monitoring, administering medications, electrical cardioversion and/or defibrillation, IV therapy, and others as permitted according to medical control protocols; maintains constant awareness of patient condition; identifies and relays diagnostic signs to medical personnel while en route to medical facility; reports verbally and in writing to emergency room personnel upon arrival.

Assists with extrication and other rescue procedures as necessary.

Provides instruction and leadership of new employees and EMS students as assigned.

Prepares run reports to document patient care, response time, compliance with medical protocol, and patient billing information.

Inspects assigned vehicles and equipment to ensure cleanliness, sanitation, proper condition of equipment, and an adequate inventory of supplies; cleans and decontaminates vehicles and equipment, and notifies Medical Duty Officer of equipment/vehicle maintenance needs.

Assists in stocking supplies in station and ambulances as needed.

Performs all work in compliance with applicable policies, procedures, regulations, medical/ emergency protocols, and standards of quality and safety. Participates as required in QA/QI activities as designated by Clinical Affairs Officer.

Performs general vehicle readiness/maintenance, housekeeping and grounds duties as assigned.

Receives and responds to public inquiries, complaints and requests for assistance in areas of responsibility. Participates in public education, PR events and other activities as assigned.

Performs general clerical work as required, including but not limited to preparing electronic reports, copying and filing documents, entering and retrieving computer data, answering the telephone, etc.

Keeps abreast of new EMS technology, methods and regulations for emergency medical assistance operations; attends meetings, training and continuing education classes as required and/or appropriate to enhance job knowledge and skills and maintain IDHS certification/licensure.

Salary: DOQ, based on verifiable experience
